DENTAL EMERGENCY PROTOCOL

EMERGENCY PROCEDURES

FOR THE DENTAL LABORATORY AND CLINICAL TRAINING SITE

In the event of a medical emergency during laboratory or clinical practice in the training facility, the following process must be observed:

1. The student is to notify the dentist without delay in the event of a probable medical emergency.
2. The student should stay with the patient, notify the closest person that the dentist is needed immediately.
3. When the dentist arrives, the student will provide information regarding the situation, the dentist will assess situation.
4. The student must stay with the patient and will:
 - a. Inform the dentist of any important information known about the patient.
 - b. Take all vital signs and monitor until situation is resolved and or emergency medical personnel arrive.
 - c. Assist the dentist upon request.
 - d. If emergency personnel must be called, office staff will activate 911.
5. All information must be documented in the patient's chart using red ink.
